

Roncesvalles Avenue and Fermanagh Avenue Watermain Replacement and Sanitary Sewer Replacement

Expected Construction Start Date: June 2009
Expected Construction Completion Date: December 2009

As part of the 2009 Capital Works program, the City of Toronto is undertaking the following work:

- Roncesvalles Avenue from Queen Street West to Boustead Avenue - watermain replacement and sanitary sewer replacement
- Fermanagh Avenue from Sorauen Avenue to Roncesvalles Avenue - watermain replacement

Please refer to the map on the reverse side.

Design Details

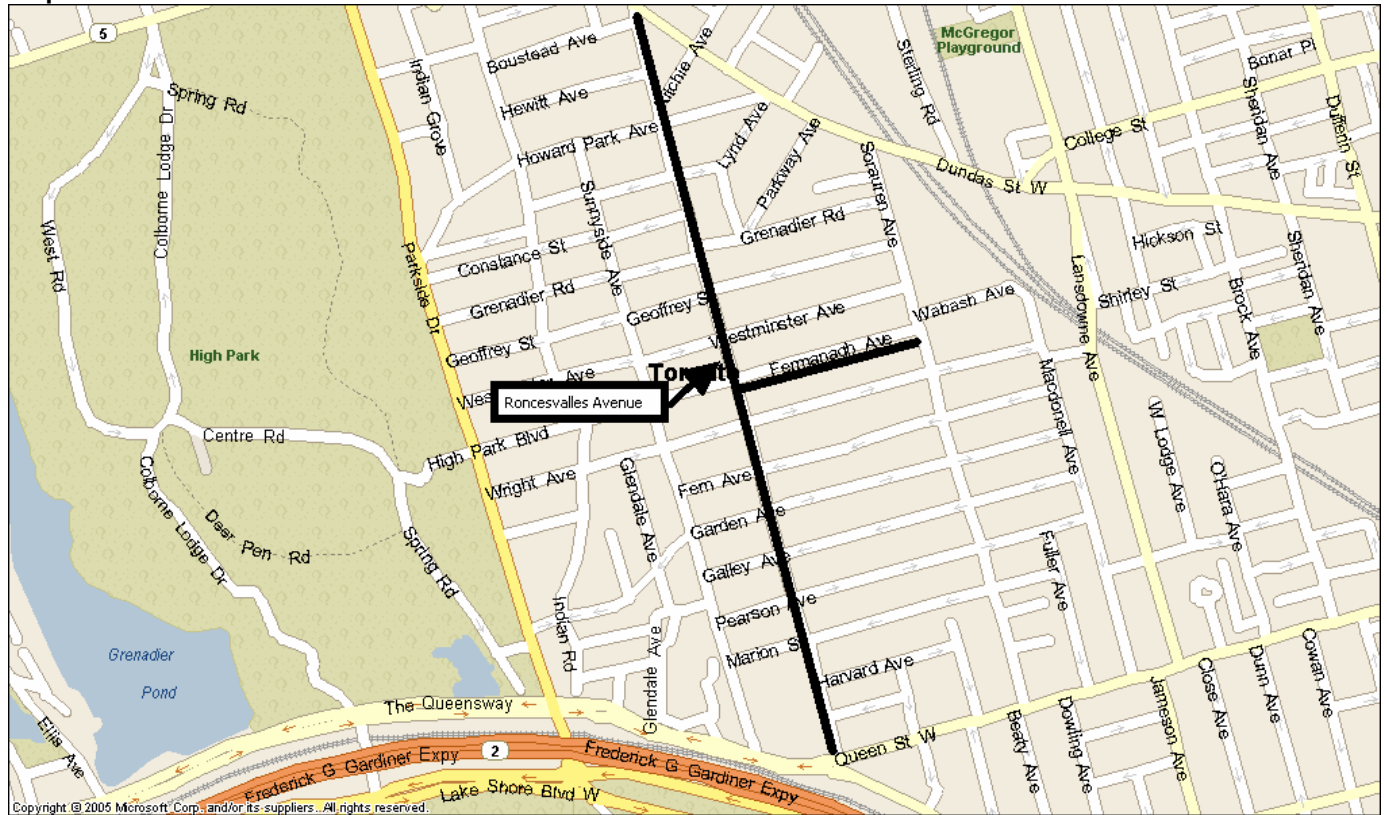

- Watermain replacement will generally include removing or abandoning the existing watermain, installing new watermain and replacing substandard water services to property line. Work will also include the restoration of the road, driveways, sidewalks, walkways and boulevards impacted by construction.
- Sanitary sewer replacement will consist of replacing the existing sanitary sewers and sanitary service connections to property line, and the restoration of the road, driveways, sidewalks, walkways and boulevards impacted by construction.

In order to complete the work effectively and in a safe manner, some traffic restrictions such as reduced traffic lanes or temporary road closures may be necessary. As well, access to your driveway may be interrupted from time to time during construction. The contractor will be obligated to notify you of any temporary driveway closures.

Next Steps

This project is currently in the design stage. It is anticipated that construction work will commence in June 2009 and the entire contract is expected to take approximately six months. Normal working hours will be from 7:00 am to 7:00 pm, Monday to Friday and some Saturdays, if the need arises. Additional notices will be delivered before construction starts, including notice of contractor, schedule, and other contact requirements for construction purposes.
