

GEORGETOWN SOUTH PROJECT CONSTRUCTION UPDATE

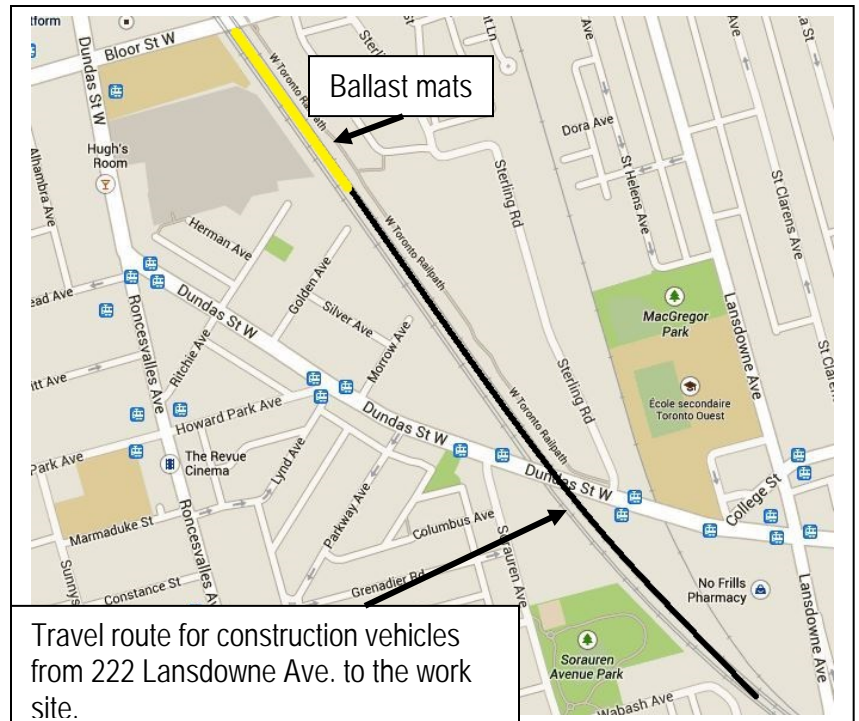

The Georgetown South (GTS) Project will provide infrastructure improvements to meet existing GO Transit ridership demand and future growth. It will also accommodate the new Union Pearson Express (formerly known as the Air Rail Link) service between Union Station and Pearson International Airport. This project is one of the key elements of The Big Move.

Continuous Weekend Track Work June 13–15

What we are doing

- We are installing ballast mats underneath the tracks between Bloor St. West and Sterling Ave. to reduce train vibrations.
- Vehicles will enter the corridor at 222 Lansdowne Ave. (No Frills) and travel north to the worksite.
- Continuous work is required to install the ballast mats and reinstall the tracks beginning on **Friday, June 13 at 7:00 p.m.** and is expected to be complete **Sunday, June 15 at 5:00 p.m.** There is a possibility this work may extend into Sunday night.
- This work can only be done outside of regular train service.

How this will affect you

- Residents living nearby can expect some noise associated with construction vehicles, excavation and from the installation of the ballast mats. Lights will be used during overnight hours however they will be focused away from nearby homes as much as possible.

If you have any concerns during the work, please do not hesitate to contact our 24-hour number at 416-601-3611.

East Corridor E-mail List

We want to maintain regular communications with our neighbours while work is being completed. To receive updates and information about the work in your community, please send an email to gts@gotransit.com referencing the East Corridor e-mail list and include your name, address and telephone number.

Thank you for your patience as we work on the East Corridor Grading, Track and Signals Project
