

# Budapest Park Playground Improvements

The City of Toronto, Parks Forestry and Recreation, has plans to upgrade the Playground at Budapest Park on the Western Waterfront.

Improvements to the playground and surroundings will make this existing outdoor play space easily accessible for children of all ages and abilities. Upgrades will include :

- a new paved pathway into the play area and onto the boardwalk
- reformed and resurfaced play-pads
- new sandbox and play fixtures, with park bench seating on generous platforms
- restored and increased sodded areas
- The riding dinosaurs and the wading pool will remain.
