

# TRANSFORMING TRANSIT IN YOUR AREA

## Lansdowne Avenue Bridge Rehabilitation

DECEMBER 2016

Metrolinx, an agency of the Province of Ontario, is working to transform the way the region moves by building a seamless, convenient and integrated transit network across the Greater Toronto and Hamilton Area (GTHA). Over the next 10 years, Metrolinx is transforming the existing GO rail system to deliver a whole new rapid transit experience to your community. With more frequent train service, you'll have more options to get you where you need to go.

### THE LOCAL PROJECT

The Lansdowne Avenue Bridge Rehabilitation Project involved replacing three bridge spans on the north side of the Lansdowne Avenue Bridge and upgrade the bridge abutments. That work has been completed, and the next stage involves completing concrete work and welding plates at various locations on the bridge.

### WHAT TO EXPECT

Residents can expect normal construction noise, including back-up alarms from trucks. We will ensure any lights are directed away from homes where possible.

### TIMING

We plan to work continuously starting **Friday, December 23 at 8:00 p.m. to Saturday December 24 at 11:00 a.m.** This work can only be completed when there is minimal train activity. The work dates below are subject to change based on weather conditions.

### QUESTIONS?

For any questions or to be included on future communications, please do not hesitate to contact me at 416-202-3467 or [Laura.Durie@metrolinx.com](mailto:Laura.Durie@metrolinx.com)

THANK YOU FOR YOUR CONTINUED PATIENCE

## STAY CONNECTED
