

Dundas Street West Urgent concrete repairs – multiple locations

Start date: Week of April 2, 2018

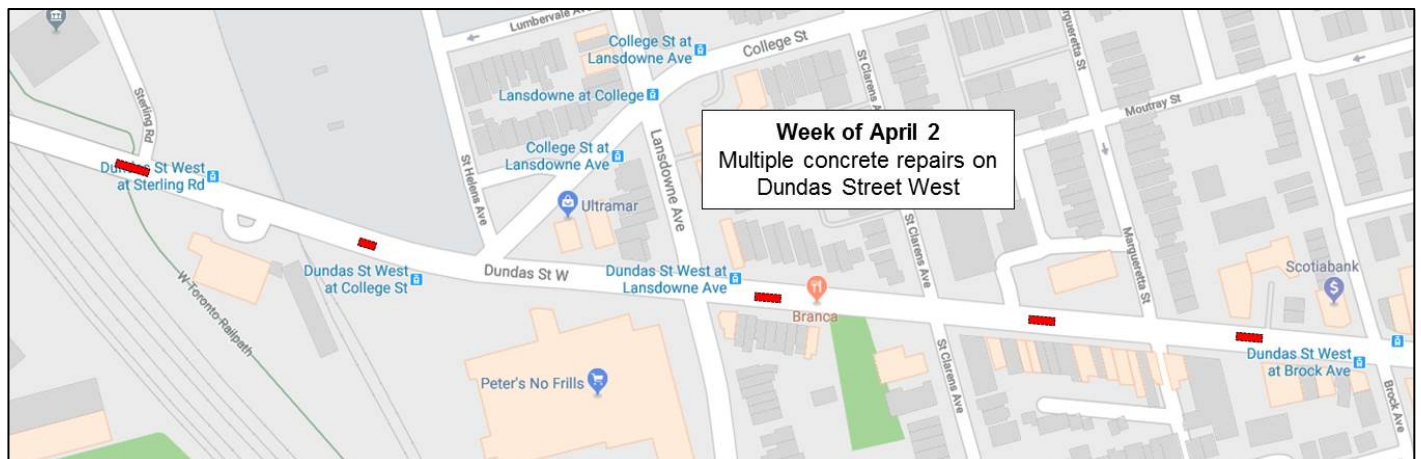

Content/timeline accurate at time of printing

Work description and purpose

Starting April 2, TTC will be conducting urgent concrete repairs to various sections of streetcar track allowance on Dundas Street West. The work is required to return areas to a state of good repair for all road users. Track staff will conduct repairs **one work area at a time (moving work zone)**, starting from the west at Sterling Road moving east towards Brock Avenue.

Work will require concrete breaking/chipping and placing new concrete. Each work area below will take a day or two to complete:

1. Near Sterling Road
2. West of St Helens Avenue
3. East of Lansdowne Avenue
4. East of St Clarens Avenue
5. East of Margueretta Street

Traffic and pedestrian restrictions

- Crews will occupy the streetcar track allowance (centre lane) to conduct the repairs.
- Traffic will be maintained in both directions through the work areas.
- Some parking and turning restrictions will be required to create a safe work zone for the crew.

Work hours and timeline

- Each work zone will be established around 7 a.m. on the first day and will be in place until completion.
- Activities will include milling/breaking old concrete and placing new concrete. The majority of removal will be done between the hours of 7 a.m. and 9 p.m. Some overnight work may be necessary. Concrete will be placed afterwards and left to cure overnight.
- Lane restrictions through the work area will remain in place for approximately 24 hours after new concrete is placed to allow it to cure before vehicle traffic is allowed to travel over the repaired area.

TTC service changes

The 505 Dundas and 506 Carlton streetcar routes are currently operated with buses and will be maintained through each work area.

Thank you for your patience as we work to improve transit in Toronto.
