

Streetcar Track Renewal and Platform Expansion Dundas Street West Station - Update

Timeline: April 11 to June 18, 2022

**Content / timeline accurate at time of printing*

What we are doing and why

Beginning Monday, April 11 TTC and its contractor will be onsite to mobilize in preparation for streetcar track reconstruction project at Dundas West Station.

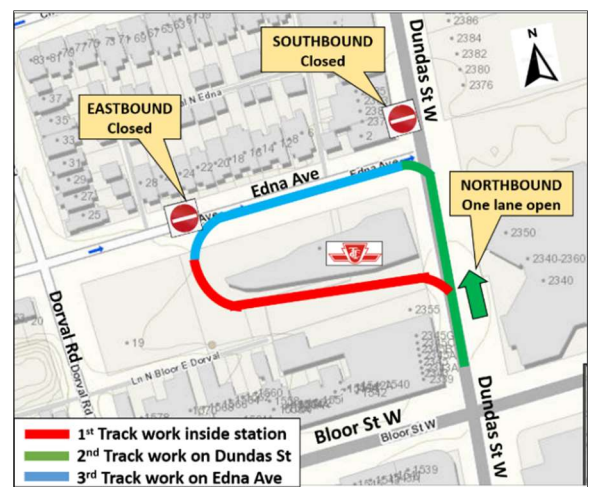

TTC Service

- All surface routes will be restricted from entering Dundas West Station during the project. **Details on the reverse side.**
- Subway operations at Dundas West Station will be maintained.
- Customer/pedestrian access to the station will be maintained. A protected pedestrian path around the work area on Dundas Street West will be in place.
- Cyclists should dismount when using the pedestrian path.

Work

The sequence of work has been modified from previous notice:

- Track/concrete removal work will begin inside the station at the west end **on April 12** and progress towards Dundas St.
- Track work on Dundas Street West is scheduled to begin **on May 8**, followed by work on Edna Avenue.
- The permanent repair to a section of track on Dundas Street West, south of Bloor Street is of an emergency nature. This work will be scheduled early in the project. **Details will be provided in a future notice prior to the start of the emergency work.**
- Modifications (bump-out) to the eastbound streetcar stop on Dundas Street West just east of Roncesvalles Avenue.

Traffic and local access

During work inside the station

- Traffic and local access maintained in the area.

During work on Dundas Street West, north of Bloor Street:

- **Southbound:** will be closed to traffic at Edna Avenue for up to 30 days **starting May 8**. Access to The Crossways' driveway will be maintained. Advance construction traffic signage will be posted advising southbound motorists of the road closure at Edna Avenue. Other construction traffic signage will be posted in the area.
- **Northbound:** will be reduced to one lane through the construction zone.
- **Parking** on Dundas Street West north of Bloor Street (Taxi Stand) will be restricted.

During work on Edna Avenue

- Edna Avenue will be closed to traffic from west of the station exit to Dundas Street West. **Sidewalk** access will be maintained. Access to the laneway off Edna Avenue east of Dorval Street will be maintained. **Waste collection:** Follow your normal routine. Ensure your address is on your bins.

As part of track renewal projects, equipment and materials are stored close to the site. Rail panels will be delivered to the site on flatbeds. Some flatbeds will be temporary stored in the station, on Dundas Street West and on Edna Avenue for a short period of time prior to being installed.

Work activities and work hours

- Major construction activities, including concrete breaking, excavation and rail removal will take place from 7 a.m. to 11 p.m.
- New rail installation will involve periods of late evening hours, overnight work hours and extended weekend hours by TTC crews - moving rails into position, rail installation and rail welding / grinding. Efforts will be made to keep avoidable noise to a minimum.
- Overhead wiring work will take place before and after of track removal/installation.

Over...

Construction Notice

TTC service - April 11 to May 7, 2022

Subway operations at Dundas West Station will be maintained. Customer/pedestrian access to the station will be maintained. All surface routes will be restricted from entering Dundas West Station. Routings are subject to change. Customer Information updates will be posted online and posted along the affected routes prior to changes.

- **40 JUNCTION-DUNDAS WEST:** Buses will operate to Dundas West Station serving the station on-street on Edna Avenue at Dundas Street West.
- **168 SYMINGTON:** Buses will operate to Dundas West Station serving the station on-street on Edna Avenue at Dundas Street West.
- **312 ST CLAIR-JUNCTION NIGHT:** Buses will operate to Dundas West Station serving the station on-street on Edna Avenue at Dundas St West.
- **505 DUNDAS:** Streetcars will divert to High Park loop via Howard Park Avenue.
- **306 CARLTON:** Overnight streetcars will divert to High Park Loop via Howard Park Avenue.
- **504C KING:** Replacement buses extended to High Park Station via Bloor Street West, serving Dundas West Station on-street at Bloor/Dundas intersection.
- **402 PARKDALE COMMUNITY BUS:** Will detour as required.

TTC service - May 8 to June 18, 2022

Subway operations at Dundas West Station will be maintained. Customer/pedestrian access to the station will be maintained. All surface routes will be restricted from entering Dundas West Station during the project and be rerouted. Routings are subject to change.

- **40 JUNCTION-DUNDAS WEST:** Buses will operate to Lansdowne Station via Dupont Street and Lansdowne Avenue.
- **168 SYMINGTON:** Buses will operate to Lansdowne Station via Bloor Street West and Lansdowne Avenue.
- **312 ST CLAIR-JUNCTION NIGHT:** Buses will operate to Keele Station via Keele Street.
- **505 DUNDAS:** Same as above.
- **306 CARLTON:** Overnight streetcars will be replaced with buses, extended to Keele Station via Bloor Street West, servicing Dundas West Station on-street at Bloor/Dundas intersection.
- **504C KING:** Same as above.
- **402 PARKDALE COMMUNITY BUS:** Same as above.

Note: As Lansdowne Station does not yet have an elevator, accessible connections to Line 2 BLOOR-DANFORTH from route 40 should be made by transferring to 41/941 KEELE, 89/989 WESTON, or 189 STOCKYARDS buses at Keele Street, and from route 168 by transferring to 26 DUPONT buses at Dupont Street.

TTC Service - Effective June 19

- **505 DUNDAS:** Streetcars will continue to operate to High Park Loop until streetcar overhead restoration at Dundas West Station is complete.
- **306 CARLTON:** Overnight streetcars will continue to be replaced with buses, operating to Dundas West Station.
